30. juni 2016

Investeringsstrategi

SKAGEN Focus er en aktiefond, hvor forvalterne kun investerer i deres allerbedste ideer. Målet er at skabe langsigtet afkast ved at investere i en portefølje bestående af globale selskaber i alle størrelser, men hvor størstedelen investeres i små- og mellemstore selskaber. Investeringsbeviser tegnes i de respektive fonde og ikke direkte i aktier og andre værdipapirer. Referenceindekset reflekterer fondens investeringsmandat. Fordi investeringsfonden er aktivt forvaltet, vil porteføljens sammensætning afvige fra indeksets.

Information om omkostninger

For at forstå, hvordan omkostningerne påvirker investeringerne og det forventede afkast, se dokumentet med central information (PRIIPS KID)

Løbende omkostninger: 1,60 %
(Hvoraf forvaltningsomkostninger udgør 1,60 %)

Variabelt forvaltningshonorar: 10,00 %
(se yderligere detaljer i fondens prospekt)

SKAGEN Focus A

Månedrapport for Juni 30.06.2026. Alle opgørelser er i DKK medmindre andet er angivet.

Dette er markedsføringsmateriale. Se venligst prospektet, før du træffer endelige investeringsbeslutninger.

Historisk afkast er ingen garanti for fremtidige afkast. Fremtidige afkast vil afhænge af markedsudviklingen, porteføljeforvalterens evner, fondens risikoprofil samt tilhørende omkostninger. Afkastet kan blive negativt som følge af en negativ prisudvikling. Fondens centrale investorinformation samt faktaark er tilgængeligt på hjemmesiden: www.skagenfondene.dk

Risikoindikator (SRI)

Vi har klassificeret dette produkt som **4 av 7**, som er en middel risikoklasse.

Den summariske risikoindikator angiver dette produkts risikoniveau i forhold til andre produkter. Den viser sandsynligheden for, at produktet vil tabe penge på grund af bevægelser i markedet. De mulige tab ved det fremtidige afkast vurderes på et middel niveau. Andre risici, der i væsentlig grad har relevans for PRIIP'en, og som ikke er inkluderet i den summariske risikoindikator: Hændelsesrisici, likviditetsrisici, operationelle risici, genpartsrisici, derivatrisici og valutarisiko. Hvis fonden investerer i værdipapirer i en anden valuta end fondens basisvaluta, påvirkes værdien af ændringerne i vekselkursen. Derudover kan værdien af din udbetaling påvirkes, hvis din lokale valuta er en anden end fondens valuta. Dette produkt indeholder ikke nogen beskyttelse mod den fremtidige udvikling i markedet, så du kan tabe noget af eller hele din investering.

Q2 commentary, June 2026

Global equity markets continued to be dominated by developments around the Strait of Hormuz. Towards the end of the quarter, the investment environment was shaped by a de-escalation in geopolitical tensions, and the US and Iran signed a new ceasefire that could potentially reopen the Strait. This led to sharply lower energy prices and reduced inflationary pressures. Somewhat surprisingly, the ECB also raised interest rates despite the temporary nature of these price pressures. There has been a wide divergence between global sectors, even within the AI-related stock complex. The AI enablers – the recipients of massive hyperscaler capex spending – have performed exceptionally well. This includes South Korean memory makers, which helped drive the Kospi to record levels and recently, perhaps temporarily, overtake Canada as the world's seventh-largest equity market. Small- and mid-cap stocks, particularly those with greater cyclical exposure, continue to trade at a substantial discount to large- and mega-cap companies, although the normalisation process appears to have begun.

One of the fund's strongest contributors in the quarter was South Korean industrial company Hyundai Mobis. The shares performed strongly as investor focus on corporate governance and the company's substantial stake in Hyundai Motor increased. Recent interest in themes such as robotics has also highlighted additional long-term optionality. We reduced the position into strength. Another significant contributor was Hong Kong-listed technology group Lenovo. Strong results and rapid growth in AI-related revenues shifted investor perception from legacy PC assembler to AI infrastructure beneficiary, and we exited the position at our price target. During the period, we also exited several other holdings at target prices, including stainless steel producer Aperam, machinery manufacturer Doosan Bobcat and wafer producer Siltronic. On the negative side, Mexican logistics group Grupo Traxion was impacted by continued tariff uncertainty and limited near-term economic visibility, despite unchanged long-term fundamentals linked to nearshoring trends. The stock trades well below both US peers and our estimate of fair value. Another weaker contributor was methanol producer Methanex, which gave back some of its strong first-quarter gains. The shares still trade at a low valuation relative to current earnings power and medium-term cash flow generation, and we believe compelling capital allocation catalysts are emerging. US food retailer Albertsons also lost ground as price competition appears to be intensifying, leaving the stock trading at around 5x forward earnings. We believe the market is underestimating the company's free cash flow potential, real estate asset backing and opportunities for capital allocation and portfolio rationalisation.

The fund received two takeover offers from strategic buyers. Despite a challenging operating backdrop, our position in Beazer Homes attracted interest due to its low valuation and strong market position. Peer homebuilder Dream Finders Homes submitted a takeover offer at a 40% premium to the share price at the time, but the proposal still represented a significant discount to book value and was rejected by the board. Our price target remains materially above the offer, and we await either an improved bid or the emergence of other potential suitors. Another recent example is Italian bank Banca Monte dei Paschi di Siena (BMPS), where we initiated a position last year on the view that the market underestimated the bank's earnings power. The planned combination with Mediobanca had distorted investor perception, while the shares traded below book value, offered a double-digit dividend yield and generated returns on equity of 10–11%. A takeover offer from larger peer Intesa triggered a significant share price increase to our price target, and we subsequently exited the position.

A long-awaited opportunity to initiate a position in Hitachi Construction Machinery, the Japanese construction and mining equipment producer, arose when Hitachi sold a stake in the company (see below for details). The market appears not to fully reflect its medium-term earnings power, while the impending full separation from Hitachi should enable it to operate on a standalone basis. We believe this will create attractive catalysts through a streamlined operating structure and a greater focus on the mining business. Another new position is Bangkok Bank, Thailand's leading corporate bank and one of Southeast Asia's largest financial institutions. Unlike most Thai peers, its loan book is dominated by large corporates and international lending, with limited exposure to consumer credit. Across ASEAN, we see optionality from value-enhancement programmes similar to those introduced in Japan and South Korea, and discounted banks are a natural place to start. Bangkok Bank trades at around half of book value and has an overcapitalised balance sheet, creating attractive capital allocation opportunities. Everest Group is another new position. The Bermuda-based property & casualty reinsurer and specialty insurer generates earnings through underwriting and investment income on its sizeable float. We believe a structural improvement is underway, with a shift in revenue mix from long-tail casualty and retail business towards short-tail property and specialty lines. This should support a combined ratio in the mid-90s versus around 100% historically. The company is approaching an inflection point in capital allocation, and we expect share buybacks while the stock trades below book value and at roughly 6x forward earnings.

At the time of writing, the fund's average market capitalisation is USD 5.3bn and it holds 50 undervalued positions. Reflecting strong idea generation, 37% of holdings were initiated within the past year. The fund offers 75% upside to our aggregated price targets. Consistent with our value-oriented investment process, it trades at an attractive valuation of 0.8x book value and 10.3x earnings power.

Bæredygtighed

SKAGENS tilgang til bæredygtighed

Vores tilgang til ESG bygger på fire søjler. I tråd med SKAGENS aktive investeringsfilosofi har vi i vores bæredygtige aktiviteter fokus på at engagere os i porteføljeselskaberne. Det er nemlig her, vi kan gøre den største forskel. Vi anerkender dog, at en bæredygtig investeringsstrategi først når sit fulde potentiale, når følgende fire søjler kombineres.

- ✓ Eksklusion
- ✓ Øget due diligence
- ✓ ESG-faktaark
- ✓ Aktivt ejerskab

Artikel 8

Sustainable Finance Disclosure Regulation (SFDR)

Produktet tager hensyn til bæredygtighedsrisici og ESG-egenskaber som en del af sin ESG-integreringsproces. Selv om det fremmer miljømæssige og/eller sociale egenskaber, er det ikke bæredygtige investeringer, der er det primære formål. Vi vurderer de vigtigste negative konsekvenser ud fra, hvad der har størst betydning (Principal Adverse Impacts). For mere information om produktets bæredygtighedsrelaterede aspekter, herunder et sammendrag af bæredygtighedsoplysningerne, se prospektet.

VIKTIG INFORMATION

Historisk afkast er ikke garanti for fremtidigt afkast. Fremtidigt afkast vil blandt andet afhænge af markedsudviklingen, forvalterens evner, fondens risikoprofil og omkostninger. Afkastet kan blive negativt som følge af kurstab. Det er forbundet med risici at investere i fonde på grund af markedsbevægelser, udvikling i valuta, renteniveau, konjunkturer samt branche- og selskabsspecifikke forhold. Før der tegnes andele, opfordrer vi til, at man læser fondens nøgleinformation (KID) og prospekt, som også indeholder information om omkostninger. Læs mere: www.skagenfondene.dk/vores-fonde

Oversigt over investors rettigheder kan findes via [Investorrettigheder - SKAGEN Fondene](#). Beslutningen om at investere bør ske under hensyntagen til alle fondens karakteristika. Information om bæredygtighed i SKAGEN Fondene findes via: www.skagenfondene.dk/baeredygtighed/ansvarlige-investeringer/
